

Discussion Regarding Formation of Additional Subcommittees

Proposed Subcommittees

Groundwater Subcommittee

- Help review and interpret groundwater model results
- Help identify “desired future conditions” and triggers
- Help propose and select groundwater management strategies for evaluation
- Serve as a liaison to the full RBC

Proposed Subcommittees

River Basin Plan Subcommittee

- Review initial Draft of Plan Sections
- Representation from each water interest group is ideal

Tentative Schedule for Chapters 1 through 5

<u>Month</u>	<u>Draft Chapter Ready for Initial Review</u>
January	Ch. 1 – Introduction
February	Ch. 2 - Description of the Basin Ch. 3 - Water Resources of the Basin
March	Ch. 4 - Current and Projected Water Demand CH. 5 - Comparison of Current Water Availability and Demand
