# Goals for Edisto River Basin

## “Draft Final” goals to be voted in during Jan 27 meeting:

1. Utilize the input of all stakeholders and best available science to develop and promote strategies, policies and legislative recommendations that allow sustainable use of water resources while protecting water quantity and quality in the Edisto River Basin.
2. Collaboratively work to engage the public and enhance their understanding of regional water issues and water policy.
3. Plan for sufficient water supplies to support sustainable development. Request that the State and local governments consider and encourage future development in areas with adequate water resources.
4. Ensure an adequate water supply of suitable quality to meet current and future human and ecosystem needs.
5. Encourage and recognize the value of land use practices that protect water resources.
6. Identify and promote strategies that improve resilience and minimize disruption in supply.
