Re: Response to the Updated Assessment Report  
Updated Assessment Report dated October 28, 2021  
Former Ducane Company Site  
Barnwell County  
Voluntary Cleanup Contract 16-5848-RP  
File #401356

Dear Ms. Ungerman,

The South Carolina Department of Health and Environmental Control (Department) has reviewed and approves the updated assessment report. The following comments were generated from reviewing the report:

1. The Department concurs with the installation of an additional shallow monitoring well at the DP-12 location and to grab an additional groundwater sample from a temporary point inside the building between MW-3 and MW-5.
2. Based on the sampling results the Department agrees with a remedial approach to decrease the volatile organic compounds concentrations at the site in the vicinity of MW-3, DP-12, and potentially other areas.

In the assessment report it was requested to have a meeting to present the updated Plume Analytics. Please provide dates and times to the Department for the meeting. Please feel free to contact me with any questions or comments to [kuhnkm@dhec.sc.gov](mailto:kuhnkm@dhec.sc.gov) or call me at (803) 898-0722.

Sincerely,

Kimberly Kuhn, Project Manager  
State Voluntary Cleanup Program  
Site Assessment, Remediation & Revitalization Division  
Bureau of Land and Waste Management
