RE: Pilot Study to support Feasibility Report
Westinghouse Electric/Columbia Plant
Richland County, South Carolina
Consent Agreement (CA) 19-02-HW
File #51377

Dear Ms. Joyner:

The State Voluntary Cleanup Program (SVCP) received on September 19, 2024, the request to delay the submission of the Feasibility Study report until pilot studies on the proposed remedial alternative technologies can be completed. Additionally, Westinghouse Electric Columbia Fuel Fabrication Facility (CFFF) requested a due date for the Pilot Study Work Plan to be submitted to the SVCP on or before January 30, 2025.

SVCP approves of the requests and a new date for the submission of the Feasibility Study will be established following the completion of the pilot study. If you have any questions, please contact me at (803) 898-0910 or by email at greg.cassidy@des.sc.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Cassidy".

Greg Cassidy, Project Manager
State Voluntary Cleanup Program
Division of Site Assessment, Remediation, and Revitalization
