Instructions – DES 2324

PURPOSE: The *Project Inspection Designation Form* is used to identify the continuous construction inspection method the Project Sponsor has selected for the referenced State Revolving Fund (SRF) project.

INSTRUCTIONS: The Project Sponsor's Representative should complete this form. *Note that the Project Engineer cannot complete this form.*

Enter the requested project information. Identify the selected method of providing continuous inspection during the entire construction period for the referenced project. Submit any requested attachments with this form.

SCDES REVIEW AND FILING: The SRF Division will use this form to document the Sponsor's construction inspection method for the named project. The form will be kept in the Procurement file of the named project and will be retained for three years following the final SRF disbursement to the project's Sponsor - per Retention Schedule 15795.
