Florence, SC 29501

RE: **No. 1, No. 2, and No. 3 Furnaces, Melter, Refining Combustion, and Refining Process CEMS RATA Testing – Conducted March 19-26, 2019**

Dear Ms. Keeney:

The results for the referenced tests have been reviewed by the Department. Since the CEMS reported emissions are based on mass, the flow monitor was inherently included in determining relative accuracy. All monitors meet the relative accuracy requirements of 40 CFR Part 60 Appendix B.

If I can be of further assistance, please call me at (803) 898-0834 or e-mail me at williadt@dhec.sc.gov.

Sincerely,

Derek T. Williams
