**Re:** Dominion Energy South Carolina, Inc.  
Stakeholder-Developed Modified Removal Action  
Congaree River Project  
Columbia, South Carolina  
SCDHEC File #52561, VCC #02-4295-RP  
***Request for Certification of Completion – Area 1***

Dear Mr. Cassidy:

Dominion Energy South Carolina, Inc. (DESC) is nearing completion of the removal of the Tar-Like Material (TLM) and impacted sediment from Area 1 for the above referenced project. ENTACT is currently pressure washing, excavating, and removing residual TLM and sediment. The partition berm within the middle of Area 1 has been removed and the underlying area has been cleared of unexploded ordnance (UXO) to allow completion of the work. All should be completed in Area 1 by Monday, August 7<sup>th</sup>, 2023.

Previously, DESC and South Carolina Department of Health and Environmental Control (SCDHEC) agreed that SCDHEC would conduct a final inspection of Area 1, certify that all work included in the Stakeholder-Developed Modified Removal Action Work Plan for Area 1 had been completed, and provide concurrence with DESC that removal of the Area 1 cofferdam could commence. To that end, DESC is requesting SCDHEC to provide a letter of certification and concurrence with the above after completion of the final inspection.

We anticipate meeting on site with representatives from SCDHEC on Monday, August 7<sup>th</sup>, to perform the final inspection of Area 1. Should weather delays or other conditions impede the completion of the work, we will advise you immediately and adjust the inspection date as appropriate.

If you have any questions regarding this request or would like to discuss further, please contact Paul Biery at 803-217-5016.

Sincerely,

A handwritten signature in blue ink that reads "T. N. Effinger".

Thomas N. Effinger  
Director, Environmental
