- C. Status of Classifications and Reviews
- D. No Discharge Zone Designations
- E. Class Abbreviations
- F. Notations for Site-Specific Standards and Previous Class
- G. County Abbreviations

A. Criteria for Classes.

All adopted classifications must conform to the standards and rules contained within R.61-68, Water Classifications and Standards, or site-specific standards listed within this regulation. Unless noted, site-specific standards apply only to the water named and not to tributary or downstream waters.

B. Tributaries to Classified Waters.

Where surface waters are not classified by name (unlisted) in this regulation, the use classification and numeric standards of the class of the stream to which they are tributary apply, disregarding any site-specific numeric standards for the named waterbody. In tidal areas, where an unlisted tributary may affect or flows between two differently classified waterbodies, regardless of whether the location is upstream or downstream, the more stringent numeric standards of the classified waters apply to the unlisted tributary, disregarding any site-specific numeric standards for those waterbodies.

C. Status of Classifications and Reviews.

The classification for all bodies of water contained herein supersedes all previous classifications. The classifications listed within this regulation shall be open to review to ensure that the classification use is still valid and justified.

D. No Discharge Zone Designations.

The Department may determine in accordance with Section 312 of the Clean Water Act that for some waterbodies (or portions of waterbodies), the designation of No Discharge Zone (NDZ) for Marine Sanitation Devices (MSDs) shall be enacted with application of the existing classified standards of the waterbody. The designation is listed in this regulation as an NDZ following the waterbody name.

E. Class Abbreviations.

Class Abbreviations Used in R.61-69	
Outstanding National Resource Waters	ONRW (previous class)
Outstanding Resource Waters	ORW (previous class)
Shellfish Harvesting Waters	SFH

F. Notations for Site-Specific Standards and Previous Class.

An “sp” by the Class means the Department has established site-specific standards for certain parameters for that waterbody. The site-specific standards are listed in parentheses after the waterbody description. For convenience, on both ONRW and ORW waterbodies, the previous classification for the specific waterbody is given in parentheses after the Class listing.

Fiscal Impact Statement:

No costs to the State or significant cost to its political subdivisions as a whole should be incurred by these proposed amendments.

Statement of Need and Reasonableness:

The following presents an analysis of the factors listed in 1976 Code Sections 1-23-115(C)(1)-(3) and (9)-(11):

DESCRIPTION OF REGULATION: 61-69. Classified Waters.

Purpose: Amendments to R.61-69 will clarify, strengthen, and improve the overall quality of the existing regulation and make appropriate revisions to the State's water quality standards in accordance with 33 U.S.C. Section 303(c)(2)(B) of the federal Clean Water Act ("CWA").

Legal Authority: 1976 Code Sections 48-1-10 et seq.

Plan for Implementation: The amendments will take legal effect upon General Assembly approval and upon publication in the State Register. Department personnel will then take appropriate steps to inform the regulated community of the amendments. Additionally, a copy of the regulation will be posted on the Department's website, accessible at www.scdhec.gov/regulations-table. Printed copies may also be requested, for a fee, from the Department's Freedom of Information Office.

DETERMINATION OF NEED AND REASONABLENESS OF THE REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

R.61-69 establishes the State's site-specific water quality standards and provides a listing of all named and specific unnamed waterbodies, their classifications, and locations. The Department's amendments to R.61-69 clarify and correct, as needed, waterbody names, counties, classes, and descriptions.

DETERMINATION OF COSTS AND BENEFITS:

Existing staff and resources will be utilized to implement these amendments to the regulation. No anticipated additional cost will be incurred by the State if the revisions are implemented, and no additional State funding is being requested.

The overall cost impact to the State's political subdivisions and the regulated community as a whole is not likely to be significant. Existing standards would have incurred similar cost. Furthermore, the standards required under the amendments will be substantially consistent with the current guidelines utilized by the Department.

UNCERTAINTIES OF ESTIMATES:

The uncertainties associated with the estimation of benefits and burdens are minimal.

EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH:

Implementation of these amendments will not compromise the protection of the environment or the health and safety of the citizens of the State. The amendments to R.61-69 seek to correct and clarify portions of the list of classified waters in order to provide citizens a more accurate representation of the waters of the State.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

Failure by the Department to incorporate appropriate revisions to the list of classified waters in R.61-69 will allow an inaccurate representation of the State's waters to persist. This list is the only repository of the State's site-specific water quality standards and is used as the basis for National Pollutant Discharge Elimination System ("NPDES") permit decisions. If not corrected, the inaccuracies in the existing regulation may lead to unnecessary contamination of the waters of the State with detrimental effects on the health of flora and fauna, as well as the citizens of South Carolina.

Statement of Rationale:

Here below is the Statement of Rationale pursuant to S.C. Code Section 1-23-110(A)(3)(h):

R.61-69 establishes the State's site-specific water quality standards and provides a listing of all named and specific unnamed waterbodies, their classifications, and locations. The Department amends R.61-69 to clarify and correct, as needed, waterbody names, counties, classes, and descriptions.
