Re: First Semiannual 2022 Monitoring Report Review
Products (SE) Pipeline - Lewis Drive Release, 112 Lewis Drive, Belton, SC
Anderson County
Site #18693
Release reported December 8, 2014
First Semiannual 2022 Monitoring Report received August 29, 2022

Dear Mr. Dempsey,

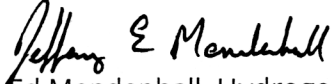

The South Carolina Department of Health and Environmental Control (DHEC) has reviewed the report and offers the following comments and/or recommendations:

- 1) Due to the elevated water table at the site, ranging from 1.5' to 14.0' below ground surface, gauging for the presence of free phase product (FPP) will continue across the site and any FPP found will be removed.
- 2) If there is a change in site conditions such as increased product levels, product in areas that product was not previously found and/or product appears on surface waters, a new corrective action plan to address the product will need to be submitted and/or more frequent monitoring may be required to address any issue that arises.
- 3) The Conceptual Site Model will be updated to include data from subsequent assessment and remediation activities.
- 4) The Quality Assurance Project Plan will be reviewed and updated if necessary during the 4th quarter of 2022.
- 5) The 2023 Groundwater Monitoring and Reporting schedule will remain the same as the 2022 schedule.
- 6) A plan to mitigate surfacing along newly installed Horizontal Air Sparge well HAS-6 will be developed to allow HAS-6 to be restarted and operate as intended or at a lesser capacity.

In the future any proposed changes to the Corrective Action Plan Addendum (CAPA) must be provided in a stand-alone document. The reviewing of monitoring reports or any other miscellaneous documents provided by Products (SE) Pipeline or Jacobs that discuss changes to the CAPA do not constitute approval of changes to the CAPA.

DHEC should be notified a minimum of four days prior to any environmental work being conducted. Documents should continue to be provided in paper format and pdf via a disk with Site ID # 18693 and Products (SE) Pipeline Lewis Drive Release noted in a prominent location. Should you have any questions, I can be reached at (803) 898-7542 or mendenje@dhec.sc.gov. Faxes can be sent to (803) 898-0673.

Sincerely,

Ed Mendenhall, Hydrogeologist
Assessment & Non-Permitted Petroleum Section
Underground Storage Tank Management Division
